LT. WARREN BRASHEAR DECORATED IN ENGLAND

First Lieutenant Warren H. Brashear, fighter pilot, now based in England under the 8th Air Corps Command, has won the coveted Air Medal and in addition has one Oak Leaf Cluster for the Medal.

News of his decoration has been received in a letter from Lieut. Brashear to his father and mother in Cameron, Mr. and Mrs. Womack Brashear.

Details of the daring exploits for which Lieut. Brashear has been decorated are not available because of military secrecy. He drives a P-47 better known as the American Thunderbolt, one of the crack fighter ships of the air. Lieut. Brashear has been in England for more than ten months and recently was sent to a designated point in England for a much needed respite from combat duty.

Lieut. Brashear's fine record in the air corps of the Army has brought him coveted decorations and news of his exploits in the air have been received here with universal appreciation for his service as a fighter pilot. The Thunderbolt fighters escort the great bombers over France and Germany in their raids on German war centers.

Lieut. Brashear was given his wings as an Army fighter pilot at Victoria. He volunteered for the Air Corps early in 1942, and received his first training at Kelley Field in San Antonio but made his first solo flights at Tulsa, Okla. From Tulsa he went to the air base at Enid, Okla., where he received his basic training.

Lieut. Brashear was born and reared in Cameron. He played football under Carol Wood and was a star backfield man. After he graduated from high school he was with the Swift Theatres in Cameron and from this connection went to the Army Air Corp.

Former Produce House Manager Here Indicted For Embezzlement

Arthur Hodde, former manager of the Peter Company, produce house here, has been indicted on seven counts of embezzlement, it was disclosed here late Tuesday when the Grand Jury adjourned.

The Grand Jury found 9 bills of indictment, seven of them against Hodde.

Hodde was manager here for the Peter Company but was relieved of his position about a year ago. It was reliably understood that the amount of money embezzled would amount to around nine thousand dollars.

Deputy Sheriff Carl C. Black, was in Houston Wednesday to arrest Hodde and return him here to face the charges. At the office of Criminal District Attorney Ed Gunn, it was not announced when the case would be set for trial.

The Peter Company is fully protected by insurance and has sustained no loss as a result of the embezzlement.

Two Milano Boys Indicted for Theft Of Corn From Barn

J. B. Lane and Louis Parker of Milano were each indicted by the Grand Jury in session this week on a charge of theft of corn.

The corn was stolen from Mrs. Ed. Bullard of Milano from a barn several miles from town.

The Grand Jury returned 9 bills of indictment and has asked to be adjourned subject to call.

GRADY STIDHAM FOR COMMISSIONER NO. 2

Grady Stidham, Commissioner for Precinct No. 2, Milam County is a candidate for re-election to that office subject to the July Democratic Primary Election to be held on Saturday, July 22, 1944.

Mr. Stidham has rendered outstanding service as a member of the Court. Friends point out that each succeeding election has shown the people of the Precinct manifest increasing esteem for him and the kind of service he has rendered as a member of the Court which in its organization is the business agency of the county.

In asking for re-election Mr. Stidham feels that he has served in accordance with the pledges he made the people. He deeply appreciates the confidence which has been expressed in him in the past and in making his announcement for re-election this year wishes to express appreciation for the many pledges of support and the great number of friends who have renewed their desire to see him elected again.

The office to which Mr. Stidham is asking re-election, is one of the most important, if not the greatest responsibility in the county government. Friends of Mr. Stidham believe he measures up to all the qualifications required in this important place. Mr. Stidham has attracted wide attention for his service as a Commissioner.

A veteran of World War No. 1, Mr. Stidham has been active in the Legion and in other organizations. During the critical days of the depression and when government subsidies were made for road work Mr. Stidham co-operated and by doing so not only provided jobs for many but his far sighted policy now has been justified by a fine system of roads in his precinct.

Perhaps the outstanding thing about his service, aside from his value to the operation of the government as a whole, is the financial strength of his accounts. Cash balances are maintained and his equipment is the best that can be obtained.

Mr. Stidham asks for your support on his record and pledges the people he will continue to serve them in the future as in the past, with first regard for the needs of his district and at all times a wise policy for the business of the county as a whole. In the event he is not able to see each one personally he takes this means of asking for your vote and support.

"I wish it said that I entered this race after consideration of all factors which seemed to me to be most encouraging," said Mr. Allen. "I am a candidate on my own account and wish to refute any implication in the slightest degree that any individual has dictated my announcement or will in any degree seek to control my actions. If you elect me my only consideration will be to all the people. No other policy would be worthy of your support and confidence."

During recent years Mr. Allen has been engaged in business in Cameron. He was born and reared in this county and is no stranger to the people. In Cameron where he makes his home and supports his family, he has lived up to all obligations as a citizen and has been most useful in service he has rendered in the community, as a member of civic organizations and church and fraternities.

Friends have been most generous bring to this office a wealth of ability and experience; integrity and character which would be commensurate with the high estimate the people have always placed on their public servants.

In the coming weeks before the election Mr. Allen hopes despite conditions to be able to see each voter. In the main such will be possible but due to time and restricted transportation facilities, he may not be in position to visit with each voter and personally ask your vote and support. This means of asking for your support is employed so you may know that Mr. Allen will greatly appreciate your help.

In advance Mr. Allen extends his in their praise of Mr. Allen's ability. They point out that he possesses the equipment which only experience can give and that in addition he has the educational and natural abilities which would combine to make an ideal servant in this office.

By reason of his experience his friends point out that he well understands the duties of the office, knows the people of the Precinct and is better equipped for these reasons than any other man. Mr. Bailey submits his record in this office as the basis for his announcement for another term and will greatly appreciate your vote and support.

The office of Constable is important in the enforcement of the law. It is second only to that of Sheriff and many cases reaching trial stage in District and County Court for grave offenses, originate in the Justice Court. Mr. Bailey is the officer for the Justice Court. Those who know of his work point to the record of the Justice Court.

Mr. Bailey has co-operated at all times with other officers and will continue to do so. He believes that his first duty is to live up to his oath and to enforce the law without favor and if re-elected will continue to serve as he has in the past with the interests of all the people in mind.

If his duties and war restrictions are such he cannot see all, he takes this means to ask for your vote and support, pledging in advance a good return on your confidence by enforcing the law and serving to the fullest extent of his experience and ability as a peace officer.

Scrap Paper Drive Hits Snag; One of Many in War Effort

Tons of waste paper, vital to the war effort, are going to the dump grounds because there has been no systematic or interested response to the appeal of the government.

For a long time no building was available to house waste paper. Now that M. G. Cox has given the use of a building there appears to be little or no concerted effort to preserve paper thrown into the trash containers of business houses.

Most any morning city trash trucks can be seen loaded full of cartons and waste paper, all going to the dump grounds. The City Council might well serve the war effort by controlling disposition of this waste paper. It began to appear the government may have given no thought to the matter, or if it has, may have failed to obtain co-operation from employees or from committees named.

Whatever the cause for this leak in the waste paper campaign, it should be remedied at once.

Here comes a suggestion from the Salvage Chairman, S. E. Brogdon, that business men who have their waste paper and trash hauled by the city are asked to separate the paper from the trash and deposit in separate containers, so that the paper may be salvaged.

This suggestion is good only to a limited extent. The paper will continue to be dumped and destroyed if no provision is made to have it hauled to storage. If the city council will not pay for needed public improvements out of taxes collected, it should divert funds to sanitation and clean up or reduce the tax rate. It is shameful to neglect the important duty of salvaging waste paper.

Mrs. Syd Stidham and daughter, Mrs. Jack Walters and two children, Charles Stanley and daughter Jackie Walters of Houston, visited their grand mother, Mrs. India Stidham this week and left Thursday for Temple where they will visit relatives for a few days, and Mrs. Walters and children will go to Graden City, Kansas, where her husband is an Air Trainer and expects to make her home while Sgt. Walters is there.

REDS ROLL GERMANS BACK IN NEW ATTACKS

The Red army in new offensives along the Dneiper river have pocketed two German armies estimated at 200 thousand men and Monday were reported to have thrown a third offensive at the Germans along the fast crumbling eastern front.

At the same time the Germans were being defeated the Russians launched a heavy air attack on Helsinki, the capital of Finland. It was believed the Reds are certain they can win now against Germany without American or British help.

The second front was still a mystery.

Bulgaria has been warned bluntly by the Russians that she must take the consequences for collaboration with Germany while maintaining diplomatic relations with Russia.

The Germans were throwing powerful units against the Allies on the beachhead south of Rome. So far the Allies have been able to throw the Germans back.

The success of attacks on the Marshall islands brought a question whether Japan was making any serious attempt to defend these fringes of her Pacific empire.

Little or no resistance has been encountered thus far in the Marshall islands.

Capt. Chas. Beacham Writes He is Getting On Well In Italy

Here is an extract from a letter from Capt. Charles Beacham who was recently wounded in the fighting in Italy. This letter, written to his parents here tells of the good treatment the medical corps of the army is giving the wounded men:

"As I've told you recently, I'm getting along splendidly. Due to miracles of modern surgery, you will have to examine my face very closely when you see me before you can see any evidence at all of injury. I'm walking about, reading and smoking my pipe and just resting. Due to the nerves in my neck and left hand my hospitalization is indefinite, but not uncomfortable.

A Smart Trick, You Think—YOU Who Poisoned Our Dog

"No doubt he passed through your yard and you, the type who think poisoning a dog is alright just so long as it does not belong to you, is something smart to do.

"You probably did not realize how much grief you were causing when you did this, but if you could have been here watching the little dog die and the little child crying because her much loved pet could never again meet her and play with her as she came home from school of anywhere else.

"I believe if you could have seen this you would not have thought it such a smart trick. Yes, he was just a dog like any other dog that had been vaccinated; with a collar and tag on, but he passed through your premises and of course you couldn't stand that. The first thing that came into your mind was to kill him—the sneaking way—poison.

"I did not know this dog was bothering anyone, if I had, I would have been glad to have kept him tied, if you had asked me to do so. But instead you had rather have the satisfaction of poisoning him so that he would come home and die in the presence of the children to whom he had been such a beloved companion. How about coming up and discussing the matter with me, you who did this?"

RED ARMY IS FORCING RAPID NAZI RETREAT

A near collapse was forecast for German armies on the Eastern Front Thursday as the Reds pounded away with ever increasing strength.

If the reports can be relied upon the Russians are now within sight of victory over the Germans. Some quarters believed the Reds may stop when they have pushed the Germans off their soil and driven them out of the Baltic states.

Little Finland was shaken badly by a request from Secretary of State Cordell Hull that she get out of the war or suffer consequences of continued collaboration with Germany. Finland will be knocked out of the war if the Germans are driven out of the Baltic.

The German retreat showed signs of panic Thursday. If unchecked victory will come quickly on the Eastern front.

The great iron ore city of Krivoi Rog has been taken by the Red Army. With the capture on yesterday of Nikopol the German disaster becomes apparent.

Silence fell over the Pacific since

the capture of the Marshalls. Fighting was bitter in Italy and Allied casualties were mounting. The Germans were attacking with great fury but were thrown back. American air strength was playing a big role in the battle for the Rome beach head. The Allies are reported to have landed a new division on the front.

Mrs. H. Alvin Meyer, Ph M 3/C of the U. S. Navy, San Francisco, Calif., and Florene Meyer employed in the Department of Agriculture Dallas, are visiting in the home of their parents, Mr. and Mrs. O. A. Meyer, 205 North Jefferson Avenue.

17 FSA Farm Buyers Meeting Here; Plan To Raise Production

Seventeen families in Milam county who are purchasing their farms through the farm ownership division of the Farm Security Administration are holding their annual meeting at the Educational Building of the First Baptist Church in Cameron this week to review their 1943 accomplishments and lay plans for even greater food production in 1944. According to FSA Supervisor, W. H. Gore, these families are part of the 4500 such tenants who are becoming land owners in Texas and Oklahoma through FSA loans.

Four of the families of this county are eligible for the "\$1,000 Club," open to those paying as much as \$1,000 on their loans during 1943. For being at least three years ahead of schedule on repayments, other borrowers will be given Certificates of Merit.

Eighty percent of these borrowers operate on the variable payment plan which provides for large repayments in good years and lower repayments in poorer years.

War food production is the prin-

cipal theme of the county meetings, according to Marvin Charles, chairman of the FSA Committee here. This committee of four prominent Milam County farmers passes upon all applicants for FSA loans and reviews their progress annually.

Money provided each year under the Bankhead-Jones Tenant Purchase Act is loaned to farmers for purchase of their places. Before such a loan can be made, an appraisal must show the prospective unit to have an earning capacity which will guarantee the repayment of the loan in forty years at three percent interest and provide a reasonable living standard for the family.

NAZI BOMB HOSPITAL KILL FOUR DOCTORS

Four American doctors and two nurses were killed Monday when a German dive bomber broke through the American air defenses south of Rome and bombed a hospital.

It was announced early Tuesday that the plane was one of 120 attacking the Allied forces off the Rome beachhead. A number of wounded men in the hospital were blown to bits and many of the hospital attendants were wounded.

Names of the four doctors and two nurses killed were not announced until next of kin have been notified.

The Germans were showing increasing air strength in Italy.

8,122 JAPS SLAIN ON MARSHALL ISLES

American losses were 286 men killed while the Japs lost 8,122 slain in the invasion of the Marshall Islands, it was disclosed Tuesday.

A total of 1,148 Americans were wounded and 82 are missing. The Americans took 286 Jap prisoners, the highest number yet to be taken in any operation against the Japs.

The figures on losses were released by the navy from Pearl Harbor. The losses in the Marshall Islands were the lowest yet reported for a similar operation since the war began.

Mrs. Gerald Schiller of Buckholts was a business visitor in Cameron Saturday.

JAPS SAY INVASION OF HOMELAND BEGINS

American naval units have heavily shelled Paramushiro Island, one of the chain that make up the Japanese homeland and if the Japs can be relied upon to state their own position they think it was on invasion thrust.

The Japanese radio was telling the people that invasion of the Kurile Islands was imminent. A Vichy radio bulletin said the Americans were already invading the Kuriles. These islands lie north of the main Jap body and penetrate the north Pacific to the Soviet peninsula of Kamachatka. If the invasion is made it would come from the Aleutians.

The Japs were told of great concentration of forces by the Americans in the Aleutians.

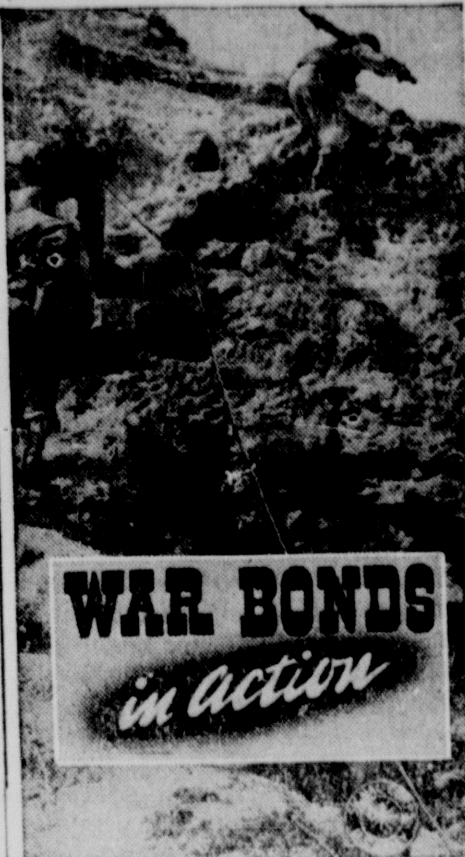

The truth of the Kwajalein disaster has been told the Japs. Here 8,122 of the enemy were slain and the Jap radio warned the people that "the Americans are only 11 hours from Tokyo by flying Fortress."

The Japs on Paramushiro were taken by surprise and broke into panic shooting wildly with shore batteries and machine guns as the frozen wastes of the island loomed white under American naval shells. Great damage was reported to shore installations.

The Germans were in a disastrous predicament on the Eastern front. The Reds were within a few miles of Nipopol where the Germans are apparently bottled up.

Phillip H. Love and Mrs. Pennie L. Erek were married January 29, 1944, at the home of Dr. A. White, pastor of First Baptist Church, Paris. Mr. Love formerly lived at Jones Prairie, and is well known in Milam county, and is the father of Mr. Love who conducts the Love Knitt Shop at Greenville and worked in Cameron prior to opening up his knitt Shop several years ago.

Sgt. Tommy Ranalli accompanied by Pvt. Sam Ferrara of Camp Hood are in Cameron on furlough visiting their many friends here.

Over the top in Italy! One more ridge, one more mile on the road to Berlin.

As in victorious military campaigns, people on the home front must sacrifice to provide all the sinews of war. One of these is the regular purchase of War Bonds.

Jack Rabbit Runs Down North Central; News or Premonition?

Whether a sudden note of progress made the streets untenable for a large mule eared jack rabbit, would be hard to prove, for early today the Lepus campestris moved out of questioning range as surprised citizens walked along North Central Avenue.

The rabbit ran across the street and disappeared behind a building two blocks away. Rabbits are vegetable eaters and feed upon grass. In view of much recent "what is the matter with our city," talk could the jack have figured grass was growing in the streets? Anyhow when jack rabbits run up and down the streets in any town its either news or premonition.

Back the attack with Bonds!

What do you like about coffee...

GRIND?

PERK KUT—Intended only for percolators, this is the coarsest of our grinds. Admiration's special process grinds the coffee to uniform-size particles, free from coffee dust. Perk Kut produces a perfect brew—in percolators.

DRIPKUT—This grind is ideal for all the various types of drip pots. It has the consistency of a fine meal, and like all Admiration grinds is free from coffee dust. Hot water has but to saturate it to extract all the flavor.

GLASSDRIP—Vacuum coffee makers brew on an entirely different principle from percolators or drip pots. A vacuum literally "pulls" the flavor from the coffee. Such coffee-makers require a very fine, almost flour-like grind—and that's exactly what Glassdrip is.

Grind is very important in coffee-making. It has a direct bearing on the strength of your brew and the quality of its flavor. Too fine a grind for your pot produces a sediment in the brew. This often makes coffee bitter. Too coarse a grind brews improperly and results in weak, flavorless coffee. The *exact* grind recommended for your coffee-maker is what you should use. It will be one of three standard grinds: for the percolator for the drip pot or for the vacuum bottle. Admiration Coffee is scientifically ground for all three. When you buy and brew the right grind, the final strength and flavor of Admiration will be exactly as its roasters intended it. And you, like countless thousands, will love it. Try a pound today.
